

About Us

Our leadership is comprised of experts in shipbuilding, manufacturing, and consulting. This gives us the perspective to understand your challenges.

Our consultants include recently retired defense executives with deep expertise in manufacturing, supply chain, process improvement, and human relations.

We provide:

Access to Other Consultants through our network of Strategic Alliances - this allows us to give clients *1 stop shopping* with a single point of contact

Because the demand for better performance never stops.

What We Do

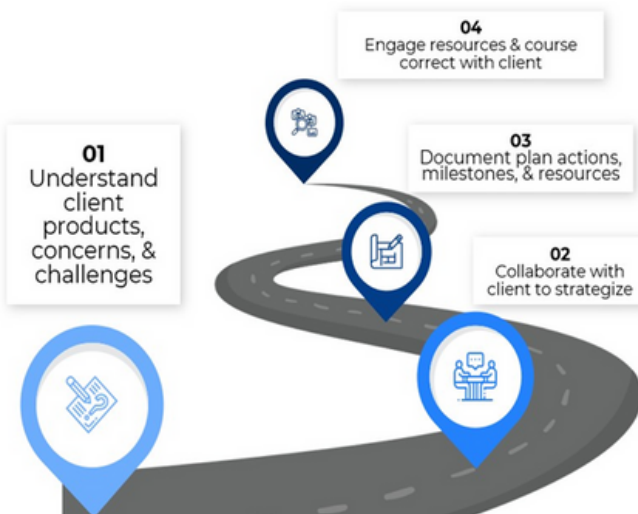

Improving Your Business
is Our Business

Results. Matter.

We focus on what our clients want to achieve. Stakeholders do not want to wait for results. We partner with client teams to deliver.

Our experts eagerly collaborate with our clients to drive results by focusing on:

1. Schedule and cost attainment via a personalized planning strategy
2. Maximum throughput of material and equipment with efficient deployment of people
3. Precise, efficient, and traceable inventory management
4. Supplier management with actionable scorecards

Connecting Shop floor to Top floor
